PUT1101B maintenance is now available. PUT1101B contains PTFs that BMC verified (tested and approved) between October 9, 2010 and April 8, 2011. This bulletin explains how to obtain PUT1101B maintenance.

NOTE
Before you apply PUT1101B, check the BMC Support Central website (at http://www.bmc.com/support) to determine whether additional maintenance is required for the product versions that you are maintaining or installing.

PUT1101B content

The following table lists where to find information about a PUT:

<table>
<thead>
<tr>
<th>Information</th>
<th>Where to find the information</th>
</tr>
</thead>
<tbody>
<tr>
<td>PUT maintenance schedule</td>
<td>Go to the “OS/390 and z/OS Installation System” section of the BMC Support Central website (<a href="http://www.bmc.com/support/downloads-patches/installation-system.html">http://www.bmc.com/support/downloads-patches/installation-system.html</a>) and click PUT Maintenance Schedule.</td>
</tr>
<tr>
<td>PTFs on a PUT</td>
<td>Go to the “OS/390 and z/OS Installation System” section of the BMC Support Central website (<a href="http://www.bmc.com/support/downloads-patches/installation-system.html">http://www.bmc.com/support/downloads-patches/installation-system.html</a>), click PUT Maintenance Schedule, and click a PUT number.</td>
</tr>
<tr>
<td>PTFs in error</td>
<td>See the Enhanced HOLDDATA information in your product installation guide. The information explains how to download and receive Enhanced HOLDDATA, and how to create and use the Exception SYSMOD report to detect critical conditions known to BMC, their relative severity, and how to fix them.</td>
</tr>
<tr>
<td>FMIDs</td>
<td>Go to the “OS/390 and z/OS Installation System” section of the BMC Support Central website (<a href="http://www.bmc.com/support/downloads-patches/installation-system.html">http://www.bmc.com/support/downloads-patches/installation-system.html</a>), click Electronic Downloads, click readme, and click a product tape listing.</td>
</tr>
</tbody>
</table>
PUT1101B installation and distribution

PUT maintenance is installed through the OS/390® and z/OS® Installer (the Installation System). For detailed information about using SMP/E to apply PUT maintenance, see your product installation guide. You can obtain PUT maintenance at any time by using any of the following methods:

- BMC Internet Service Retrieval (ISR)
  
  BMC recommends using the ISR method. For complete information about using ISR, see the information about applying maintenance in your product installation guide.

- BMC electronic software distribution (ESD)
  

- BMC Electronic Product Distribution (EPD)
  
  The EPD website is http://www.bmc.com/support/downloads-patches. Within EPD, select a product that distributes PUT maintenance, click Start the Installation/PUT Process, and then click Apply SMP/E PUT Maintenance.

- PUT maintenance tape
  
  To order PUT maintenance on tape, contact your local Customer Support representative or send an e-mail message to Product_Distribution@bmc.com.

Product-line-specific PUT technical bulletins

BMC no longer publishes product-line-specific technical bulletins containing PUT information. To find the information that was in these technical bulletins, see “PUT1101B content” on page 1.

Where to get the latest product information

To view the latest BMC documents, see the BMC Support Central website at http://www.bmc.com/support. Notices, such as flashes, technical bulletins, and release notes, are available on the website. You can subscribe to proactive alerts to receive e-mail messages when notices are issued or updated. For more information about proactive alerts, see the BMC Support Central website.
