BMC is alerting users to a problem in the following products:

- COPY PLUS for DB2®
- RECOVER PLUS for DB2®

**NOTE**
BMC previously announced this problem in a bulletin dated October 27, 2011 and updated the technical bulletin on November 17, 2011, when PTF to correct the problem for RECOVER PLUS was available. This update announces a fix to correct the problem for COPY PLUS.

### Issue

A bind fails with SQLCODE -607 when the following conditions exist:

- IBM® PTF UK71875 has been applied.
- A bind of package ACPCSQLQ (for COPY PLUS) or AFRDSLR (RECOVER PLUS) is required.

If these packages are already bound, they continue to execute normally. However, the following actions require a bind:

- installing COPY PLUS version 10.1.00 or RECOVER PLUS version 10.1.00 on a DB2 Version 10 subsystem with UK71875 applied
- upgrading from DB2 Version 8 to DB2 Version 10 on a subsystem that has COPY PLUS version 10.1.00 installed, which requires COPY PLUS to bind package ACPCSQLQ
- freeing the package ACPCSQLQ or AFRDSLR in a DB2 Version 10 subsystem with UK71875 applied

Freeing the packages causes a subsequent execution of RECOVER PLUS or COPY PLUS with a MODIFY command to require a new bind of these packages.
Resolution

PTF BPU4288 resolves this issue for RECOVER PLUS version 10.1.00.

IBM PTF UK75294 resolves this issue for COPY PLUS version 10.1.00.

BMC recommends using BMC Internet Service Retrieval (ISR) to obtain PTFs. For information about ISR, see your product’s installation guide.

You can also obtain PTFs from eFix PTF Distribution Services (eFix). You can access eFix directly at http://apps.bmc.com/support/efix.cgi or from the support site.

NOTE
If you have questions, contact Customer Support at 1 800 537 1813 (United States or Canada) or call your local support center.

Where to get the latest product information

To view the latest BMC documents, see the Support Central website at http://www.bmc.com/support. Notices such as flashes, technical bulletins, and release notes are available on the website. You can subscribe to proactive alerts to receive e-mail messages when notices are issued or updated. For more information about proactive alerts, see the Support Central website.
