BMC is announcing a change in the ALTER and CHANGE MANAGER products. On IBM® DB2 Version 10 subsystems, the Analysis component of ALTER and CHANGE MANAGER now enables using the BMC REORG PLUS for DB2 utility.

**NOTE**
If REORG PLUS does not natively support a DB2 Version 10 feature that ALTER or CHANGE MANAGER requires to execute a worklist, Analysis uses the IBM REORG utility.

PTF BPU4767 enables this functionality.

BMC recommends using BMC Internet Service Retrieval (ISR) to obtain PTFs. For information about ISR, see your product’s installation guide.

You can also obtain PTFs from eFix PTF Distribution Services (eFix). You can access eFix directly at [http://apps.bmc.com/support/efix.cgi](http://apps.bmc.com/support/efix.cgi) or from the support site.

**NOTE**
If you have questions, contact Customer Support at 1 800 537 1813 (United States or Canada) or call your local support center.

To view the latest BMC documents, see the Support Central website at [http://www.bmc.com/support](http://www.bmc.com/support). To receive e-mail messages that direct you to new notices, subscribe to proactive alerts on the Support Central website.
