BMC is announcing a change in the PUT maintenance schedule.

Starting in 2013, the PUT maintenance schedule is changing from four times a year to two times a year.

The following PUTs will be released:

- PUT1301B in May
  
  It will contain PTFs released between November 2012 and April 2013.

- PUT1302B in December
  
  It will contain PTFs released between May 2013 and October 2013.

All other information about PUT maintenance, eFix, and BMC Internet Service Retrieval (BMC ISR) remains the same. For additional information about product maintenance, see the Installation System User Guide.
