BMC originally issued these release notes on June 25, 2013. They are being reissued to describe support for the IBM® DB2® Version 11 system. Revision bars in these release notes denote differences from previous editions.

BMC Software is releasing version 11.1.00 of the Pool Advisor for DB2 product.

**NOTE**
Before you begin installation, BMC recommends that you check the Support Central website at [http://www.bmc.com/support](http://www.bmc.com/support) for:

- Updated product documentation (for example, flashes and technical bulletins)
- Product downloads, patches, and fixes (PTFs)
- Product availability and compatibility (PAC) data

These release notes supplement and supersede the product documentation and discuss product enhancements:

What’s new

These topics describe the changes or new features in this release of Pool Advisor for DB2.

DB2 Version 11 support

With the following PTFs applied, Pool Advisor now supports the IBM DB2 Version 11 system:

- BPU6121
- BPU6127
- BPU6229
- BPU6356

End of support for DB2 Version 8

Starting with this release, Pool Advisor does not support IBM DB2 Version 8. Earlier releases will continue to support Version 8.

Upgrade considerations

A known issue causes historical data from version 10.1 to be inaccessible after you install version 11.1. BMC plans to issue a notice when the fix is available.

Installation

NOTE

To request physical shipments, contact your BMC sales representative. Contact information is available on the BMC website.
Pool Advisor is installed by using the BMC Installation System. This section contains installation information that supplements or supersedes the information in the Installation System User Guide.

**Known installation issue**

If both of the following conditions exist at your site, contact BMC Customer Support before attempting to use the Installation System to customize your BMC products:

- Your subsystem is using DB2 Version 10.
- The DSNZPARM SEPARATE_SECURITY subsystem parameter is set to YES.

**Installation changes**

For information about installation changes, see the Installation System release notes.

**FMID and version information**

This release of Pool Advisor uses the following versions of the Installation System and installation media:

- Version 2.3.60 or later of the Installation System
- Version 2.3.60 or later of the C-series installation media

**NOTE**

If you have a later version of the Installation System or the installation media, use that version to install the solution, product, or component.

During installation, the following versions and SMP/E FMIDs are installed:

<table>

The preceding table contains the FMIDs for Pool Advisor for DB2 only. You can also obtain product, solution, and component information (FMIDs, codes, and versions) in the following ways:

- **View the $B76APLF JCL member.**

  To search the file, search on the word `FORFMID`.

- **View one of the following reports:**
  
  - `bxx_ozi_tape_product_list.txt` lists products and components for the B-series installation (shared and infrastructure products).
  
  - `cxx_ozi_tape_product_list.txt` lists products and components for the C-series installation (BMC products for DB2®).
  
  - `ixx_ozi_tape_product_list.txt` lists products and components for the I-series installation (BMC products for IBM IMS™).
  
  - `mxx_ozi_tape_product_list.txt` lists products and components for the M-series installation (MainView products).

To access the reports on the BMC electronic software distribution (ESD) site, take the following steps:

2. Click **Electronic Downloads**.

3. Click **readme**.

4. In the “Before you begin” section, click a product media listing.
Maintenance

After you install Pool Advisor, you can download any additional SMP/E maintenance by using either BMC Internet Service Retrieval (ISR) or eFix PTF Distribution Services (http://apps.bmc.com/support/efix.cgi). BMC ISR is available for all products that you install via the Installation System. For more information, see the Installation System User Guide.

**NOTE**
Before applying maintenance, ensure that you have completed the $B76APLF job to set up your maintenance environment.

Support status

You can find the support status for specific product versions on the Support Central website. Selecting a product from the “A – Z Supported Product List” shows:

- All versions of the product and their current support levels (full or limited)
- Dates on which support ends

For more information about the latest support policies, see the BMC Support Central website at http://www.bmc.com/support.

Product documentation

From the Support Central website (http://www.bmc.com/support), you can:

- Link to the BMC Documentation Center (https://webapps.bmc.com/infocenter/index.jsp) to browse documentation sets
- View individual product documents (books and notices) within the “A – Z Supported Product List”

You can order hardcopy documentation from your BMC sales representative or from the support site. You can also subscribe to proactive alerts to receive e-mail messages when notices are issued.
Customer support

If you have problems with or questions about a BMC product, see the support website at http://www.bmc.com/support. You can view or download product documents, find answers to frequently asked questions, and download products and maintenance.
