**REORG PLUS for DB2**

**Version 11.1.00**

**August 25, 2014**

Tracking number QM001855536: When you specify UPDATEDB2STATS YES, the statistics component might update CLUSTERRATIO with an incorrect value

A serious problem in the REORG PLUS for DB2 product requires immediate attention.

## Issue

When you specify UPDATEDB2STATS YES, the statistics component might update the CLUSTERRATIO statistic with an incorrect value.

This incorrect value can adversely affect access paths.

## Resolution

PTF BPU7212 resolves this issue. BMC plans to release this PTF by August 29, 2014.

**Note**

The PTF does not correct objects that have already been affected by the problem. To correct those objects, run one of the following utilities on them:

- BMCSTATS (from the DASD MANAGER PLUS product)
- IBM DB2 RUNSTATS
- REORG PLUS (after you have applied the PTF)

BMC recommends using BMC Internet Service Retrieval (ISR) to obtain PTFs. For information about ISR, see the maintenance information in the *Installation System User Guide*.

You can also obtain PTFs from eFix PTF Distribution Services (eFix). You can access eFix directly at [http://apps.bmc.com/support/efix.cgi](http://apps.bmc.com/support/efix.cgi) or from the support site. For information about eFix, see the online Help.
Note
If you have questions, contact Customer Support at 1 800 537 1813 (United States or Canada) or call your local support center.

Where to get the latest product information

To view the latest BMC documents, see the Support Central website at http://www.bmc.com/support.

Notices such as flashes, technical bulletins, and release notes are available on the website. You can subscribe to proactive alerts to receive e-mail messages when notices are issued or updated. For more information about proactive alerts, see the Support Central website.
