A serious problem in the following versions of the LOADPLUS and REORG PLUS products requires immediate attention:

- Version 11.1 of LOADPLUS for DB2
- Versions 11.1 and 11.2 of REORG PLUS for DB2

Issue

A non-UTS table space can become inaccessible when the following conditions exist:

- The table space is defined as MEMBER CLUSTER = YES.
- You have performed a partition-level load or reorganization.
- You are running IBM DB2 Version 11.

Known symptoms of this issue are that the system returns:

- DB2 SQLCODE -904
- Return code RC00C900E2

Resolution

IBM PTF UI34331 (for APAR PI53825) resolves this issue.
