BMC Utility products for DB2
Version 11.1.00
December 9, 2016
BMC is announcing extended support for BMC Utility products for DB2

This technical bulletin describes an extension of support for version 11.1 of the following BMC Utility products for the IBM DB2 for z/OS environment:

- CHECK PLUS for DB2
- LOADPLUS for DB2
- REORG PLUS for DB2
- UNLOAD PLUS for DB2

The following schedule applies to support for version 11.1 of these products:

- **Full support** continues through December 30, 2017.
- **Limited support** begins on December 31, 2017 and continues through December 30, 2018.

**Note**

For definitions of **full support** and **limited support**, see the “Support for Mainframe Products” section of the BMC Product Support Policy (http://www.bmc.com/support/bmc-product-support-policy.html).

The following recommendations and additional notes apply:

- BMC encourages migrating to version 11.2 (available since May 6, 2015) as soon as it is practical for your organization to do so.

- BMC also encourages discussing with your BMC account management the options for migrating to the corresponding BMC Next Generation Technology (NGT) products.

- BMC will not make any further enhancements to these products. Instead, BMC will focus future development efforts on the corresponding NGT products.

For support information for all other BMC products for DB2, see the BMC Product Support Policy.
Note

If you have questions, contact Customer Support at 1 800 537 1813 (United States or Canada) or call your local support center.

To view the latest BMC documents, see the Support Central website at http://www.bmc.com/support. Notices such as flashes, technical bulletins, and release notes are available on the website. You can subscribe to proactive alerts to receive e-mail messages when notices are issued or updated. For more information about proactive alerts, see the Support Central website.
