BMC is releasing version 3.2.00 of the Installation System.

These release notes apply to all products that use the Installation System.

**Note**
Before you begin installation, BMC recommends that you check the Support Central website at [http://www.bmc.com/support](http://www.bmc.com/support) for:
- Updated product documentation (for example, flashes and technical bulletins)
- Product downloads, patches, and fixes (PTFs)
- Product availability and compatibility data

The following topics are discussed:

<table>

**What's new**

This section summarizes the changes or new features in this release.

**Support for new products or product versions**

This release includes updated support for the following products. For more information, see each product's release notes.
- Version 2.1.00 of the MainView for Java Environments product
- Version 6.2.00 of MainView Infrastructure

**Renamed products**

The following products have been renamed within the Installation System.

*Note*
Related web pages and documentation might not yet reflect these name changes.

**Installation and maintenance**

The Installation System is installed and maintained by using SMP/E. Installing the Installation System creates the required SMP/E environment. Use the following procedures to install the Installation System or products.
Installing the Installation System or a product

Use the following procedures to install the Installation System or products.

Before you begin

For software, hardware, and other requirements, see the Installation System documentation.

If you prefer physical installation media instead of downloaded images, request physical media from your BMC sales representative. Contact information is available on the BMC website.

To install the Installation System

WARNING

The Installation System must be installed into its own SMP/E zone.

1 Review the most recent Installation System release notes from any product page on Support Central.

2 Go to the Mainframe Installation page on Support Central, or select Mainframe Installation from the Downloads & Products menu.

3 Click Installation System.

4 Click the method you want to use to obtain the Installation System, and follow the provided procedures.

To install a product

1 Ensure that you have the most recent version of the Installation System installed and that it has the most recent maintenance applied.

Note

To determine the most recent version number, see the most recent Installation System release notes on any product page on Support Central.

To determine the version number of your current Installation System, see the title line on the Installation System Main Menu.

2 Start the Installation System.

3 Follow the on-screen prompts.

For more information, see the Installation System documentation.
Maintaining the Installation System or a product

Use the following procedures to maintain the Installation System or products.

To maintain the Installation System

1. Install the most recent version of the Installation System. Installing a new version automatically applies any needed maintenance PTFs for the Installation System.
   
   **Note**

   *To determine the most recent version number, see the most recent Installation System release notes on any product page on Support Central.*

   *To determine the version number of your current Installation System, see the title line on the Installation System Main Menu.*

2. Refresh the Installation System runtime data sets by running the $205RTEC and $206RTEC jobs (in order).

To maintain a product

1. Check Support Central for product notices, such as technical bulletins about fixes and Recommended Service Level (RSL) availability.

2. Use BMC ISR (recommended) to obtain PTFs and RSLs.

3. Run the $176APLF installation job to ensure that all required FMIDs are applied.

4. Apply the product maintenance to the product's SMP/E environment.
   
   For more information, see the Installation System documentation.

FMID and version information

The Installation System is at version 3.2.00.

**Note**

Always use the most recent version of the Installation System and ensure that it has any required PTFs applied.

To determine the most recent version number, see the most recent Installation System release notes on any product page from the A-Z Supported Product List on Support Central. To determine the version number of your current Installation System, see the title line on the Installation System Main Menu. Required PTFs are announced in technical bulletins.
The Installation System uses the following versions and SMP/E FMIDs:

<table>
<thead>
<tr>
<th>FMID</th>
<th>Component</th>
<th>Version</th>
</tr>
</thead>
<tbody>
<tr>
<td>ZBMR15E</td>
<td>ISR External Routines</td>
<td>1.5.00</td>
</tr>
<tr>
<td>BBGAD41</td>
<td>Dynamic Area Manager</td>
<td>4.1.00</td>
</tr>
<tr>
<td>ZPWD330</td>
<td>BMC Password Security System</td>
<td>3.3.00</td>
</tr>
<tr>
<td>BBASC70</td>
<td>SAS_C V70B</td>
<td>7.0.00</td>
</tr>
<tr>
<td>ZCIO320</td>
<td>COMMON INSTALL SYSTEM</td>
<td>3.2.00</td>
</tr>
</tbody>
</table>

The preceding table contains the FMIDs for the Installation System only. You can also obtain product, solution, and component information (FMIDs, codes, and versions) in the following ways:

- View the generated installation JCL member $176APLF.
  To search the file, search on the word FORFMID.

- View one of the following reports:
  - Optimization products, common products, and common components
  - BMC products for IBM DB2
  - BMC products for IBM IMS
  - MainView products

  To access the reports on Support Central, take the following steps:

  1. Go to Mainframe Installation, or select Mainframe Installation from the Downloads & Products menu on the Support Central website.

  2. Click Product codes and FMIDs.

  3. Click one of the listed reports.

**Support status**

You can find the support status for specific product versions on the Support Central website. Selecting a product from the “A – Z Supported Product List” shows:

- All versions of the product and their current support levels (full or limited)
- Dates on which support ends

For more information about the latest support policies, see the Support Central website at http://www.bmc.com/support.
Customer support

If you have problems with or questions about a BMC product, see the support website at http://www.bmc.com/support. You can view or download product documents, find answers to frequently asked questions, and download products and maintenance. If you do not have access to the web and you are in the United States or Canada, contact Customer Support at 1 800 537 1813. Outside the United States or Canada, contact your local BMC office or agent.
