PUT1502B maintenance is now available. PUT1502B contains PTFs released between April 4, 2015 and October 16, 2015. This bulletin explains how to obtain PUT1502B maintenance.

**Note**

Before you begin installation, BMC recommends that you check the Support Central website at [http://www.bmc.com/support](http://www.bmc.com/support) for:

- Updated product documentation (for example, flashes and technical bulletins)
- Product downloads, patches, and fixes (PTFs)
- Product availability and compatibility (PAC) data

If you have questions, contact Customer Support at 1 800 537 1813 (United States or Canada) or call your local support center.

### PUT1502B content

The following table indicates where to find information about the PUT’s contents:

<table>
<thead>
<tr>
<th>For information about</th>
<th>Do this</th>
</tr>
</thead>
</table>
| PUT maintenance schedule | 1 Go to the “Installation and maintenance for BMC data management for DB2 and IMS, MainView, and cost optimization products” section of the BMC Support Central website ([http://www.bmc.com/support/reg/installation-system.html](http://www.bmc.com/support/reg/installation-system.html)).  
2 Click **PUT Maintenance Schedule**. |
<table>
<thead>
<tr>
<th>For information about</th>
<th>Do this</th>
</tr>
</thead>
</table>
| PTFs on a PUT          | 1  Go to the “Installation and maintenance for BMC data management for DB2 and IMS, MainView, and cost optimization products” section of the BMC Support Central website (http://www.bmc.com/support/reg/installation-system.html).  
2  Click **PUT Maintenance Schedule**.  
3  Click a PUT number. |
| PTFs in error severity and how to fix them. | See the Enhanced HOLDDATA information in the *Installation System Reference Manual*. The information explains how to download and receive Enhanced HOLDDATA; it also explains how to create and use the Exception SYSMOD report to detect critical conditions known to BMC, their relative severity, and how to fix them. |
| FMIDs                  | 1  Go to the “Installation and maintenance for BMC data management for DB2 and IMS, MainView, and cost optimization products” section of the BMC Support Central website (http://www.bmc.com/support/reg/installation-system.html).  
2  Click **Product codes and FMIDs**.  
3  Click a product group.  
**Note:** The FMIDs for a product are also in the product’s release notes. |

## **PUT installation and distribution**

PUT maintenance is installed through the Installation System. For detailed information about using SMP/E to apply PUT maintenance, see the *Installation System Reference Manual*. You can obtain PUT maintenance at any time by using any of the following methods.

- **BMC Internet Service Retrieval (ISR)**
  
  BMC recommends using the ISR method. For complete information about using ISR, see the information about applying maintenance in the *Installation System Reference Manual*.

- **BMC Electronic Software Distribution (ESD)**
  
  The instructions for using ESD for maintenance are at [http://www.bmc.com/support/installation-maintenance.html](http://www.bmc.com/support/installation-maintenance.html).
- PUT maintenance physical media

Order PUT maintenance on physical media from your local BMC Sales Representative or send an e-mail message to Product_Distribution@bmc.com.

**Note**

When you order PUT maintenance on physical media, you will receive the Maintenance Media DVD (which contains the PUT images only) and the Product Installation Media DVD (which contains the Installation System images and product images).

---

**Where to get the latest product information**

To view the latest BMC documents, see the Support Central website at [http://www.bmc.com/support](http://www.bmc.com/support). Notices such as flashes, technical bulletins, and release notes are available on the website. You can subscribe to proactive alerts to receive e-mail messages when notices are issued or updated. For more information about proactive alerts, see the Support Central website.
